

YOU CAN TELL HE REALLY CARES ABOUT WHAT HE'S TALKING ABOUT!

-MARK K.

SPEAKING TOPICS

- ▶ POST PRODUCTIONS NEW INFLECTION POINT**
Cloud and remote computing has finally entered into the realm of possibility for the creatives within post production. But what do creatives need to know? What tech is available for them today?
- ▶ FILMMAKING IN 2030: POST PRODUCTION**
Did you know that the major studios have already released their technology goals for filmmaking for 2030? They have! In this presentation, Michael covers what Paramount Pictures, Sony Pictures Entertainment, Universal Studios, Walt Disney Pictures and Television and Warner Bros. Entertainment have agreed upon as the future.
- ▶ HOW TO ENTER HOLLYWOOD THROUGH THE SIDE DOOR: STARTING A CAREER IN POST PRODUCTION.**
Landing a job where you're competing with dozens (or hundreds!) of other applicants can be a massive challenge. But starting in tech and using it as a doorway into the creative space is an often overlooked path. In this presentation I will cover what tech you should know, what certifications will help you, and how to use tech to your creative gig advantage.

VALUABLE INSIGHT

Michael Kammes has designed and built thousands of production and post-production systems, workflows, and faculty integrations during his yearly 20 years as a technology advisor in the media and entertainment industry. His **"5 THINGS"** video series/podcast is a "must watch" and draws an audience of industry insiders from around the world.
